Hillman R.T., Green R.E., Brenner S.E.;
"An unappreciated role for RNA surveillance.";
Genome Biol. 5:RESEARCH008.1-RESEARCH008.16(2004).
-!- FUNCTION: Cellular role is not yet known.
-!- SUBNUIT: Binds to the protective antigen (PA) of Bacillus anthracis. Binding does not occur in the presence of calcinosus anthracis. Binding does not occur in the presence of calcinosus anthracis. Binding does not occur in the presence of calcinosus anthracis. Binding does not occur in the presence of calcinosus anthracis.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           Matsumura K., Nakajima Y., Mizuno T., Morinaga M., Sasaki M., Togashi T., Oyama M., Hata H., Watanabe M., Komatsu T., Mizushima-Sugano J., Satch T., Shiral Y., Takahashi Y., Nakagawa K., Okumura K., Nagase T., Nomura N., Kikuchi H., Masuho Y., Yamashita R., Nakai K., Yada T., Nakamura Y., Ohara O., Isogai T., Sugano S.; "Complete sequencing and characterization of 21,243 full-length human
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    MEDLINE-22608610; PubMed=12700348; DOI=10.1073/pnas.0431098100; Scoble H.M., Rainey G.J.A., Bradley K.A., Young J.A.T.; "Human capillary morphogenesis protein 2 functions as an anthra
